

Banor SIM donates € 100,000 to Milan's Niguarda Hospital

by Fabrizio Arnhold

A concrete gesture to tackle the coronavirus emergency. The donation is intended to increase capacity to provide assistance and hospitalisation to citizens affected by Covid-19

A concrete action in a time of national emergency caused by the coronavirus. **Banor SIM** has decided to stand by the medical and paramedical staff of **Niguarda Hospital** in Milan, with a donation of € 100,000 intended to provide tangible aid in countering the spread of Covid-19.

A GESTURE OF SOLIDARITY - The € 100,000 donation to **Niguarda Hospital** will be used to increase the number of beds in **intensive care**, purchase technical devices, integrate medical and nursing staff and carry out research, at an all-too-delicate time for the Lombardy region and Italy as a whole.

COMBATING THE EMERGENCY - "Our gesture is a simple acknowledgement of the work carried out by a group of heroes who find themselves on the front line every day in the fight against the coronavirus," comments **Massimiliano Cagliero**, founder and CEO of **Banor SIM**. "We admire the dedication of the women and men working in the public health service in Lombardy and every region in the country, and because of this, we thought it right to give them an **additional tool** to help them assist and save human lives."

BOOST IN STRENGTH - In order to face difficult situations like these we need the support of everyone. The Director of Niguarda, **Marco Bosio**, expressed his gratitude saying, "Our health system and all the professionals at **Niguarda Hospital** are tackling an extremely complicated fight and they are doing so with dedication, a sense of duty, passion and responsibility." "Demonstrations of support, such as this generous donation from Banor SIM, for which I thank them, on behalf of everyone at Niguarda, are, for operators, a veritable **boost in strength**."
